NATURE STAGES AERIAL SPECTACLE

An electrical storm in San Francisco early Saturday gave Marinites who were up past midnight an unusual show. Independent-Journal photographer Dick Steinheimer set

up his camera on a hill above San Rafael's Sun valley, pointed it south, and in a series of exposures over a five-minute period got this unusual picture of lightning flashes.

Police Fearful For Children's Safety By DONALD G. DAVIS

A pretty blonde San Gabriel mother of three last night was found shot to death in her mother's San Rafael home, and police today sought her husband, a general contractor, for questioning.

A neighbor said the husband claimed last week that his wife was living with another man.

The victim was Mrs. Bertie L. Rogers, 35, Her husband is Robert Burdett Rogers, 37, a home builder in the San Gabriel area, police said. He was believed to have the couple's three children with him.

Last week police investigated a family argument at the house at 9 Greenwood avenue, and took into custody a .32-calibre Colt pistol.

The house belongs to Mrs. Blanche (Blondie) Devericks, the victim's mother, she is recuperating at the San Joaquin County Hospital in Stockton from injuries suffered in a traffic accident July 15. She had been scheduled to return home today.

Police said they could supply no motive for the slaying, but a report dated Thursday on the family argument said Rogers told police his wife "was keeping company with another man."

Mrs. Rogers told police her husband had threatened her with a rifle and that he was searching for the pistol.

Police found the gun and took it into custody. Mrs. Rogers said she thought the gun Rogers told police it belong to Al Mello, a San Quentin Prison employee.

Police Chief Charles J. Chiesa said he had talked to Mello this morning, and the gun does not belong to him. A neighbor, Mrs. Lucy Corona, who lives next door at 15 Greenwood avenue, said Mello was a friend of Mrs. Devericks.

Police found the dead woman at about 8 p.m. yesterday after a call from Mrs. Norman Kathtion and Marin County Board wanted to know why her daugh- ment, and heard the girl yell, ter hadn't come to the hospital "Leave her alone! Leave her As result of the luncheon, to pick her up.

Mrs. Clark said Rogers "wanted to know what we had seen.

"He said his wife had been living with another man," Mrs. Clark said. "He said he had twisted the information out of her. He seemed terribly upset and didn't know which way to turn. I had seen him go up and down the driveway several times that evening. He pulled out his wallet and gave us a piece of paper to read. It said something like this:

"I wish to give over my three children, and I want a divorce.' There was also something about a property settlement, and I guess it was signed by his wife."

A New Group Tackles Project Worthy Of Support

It would seem that establishment of a new organization in Marin County would be no cause for celebration, we have so many already.

Yet down on the Tiburon Peninsula a new group has elected officers and gone to work, a group which is launching both an interesting and rewarding undertaking.

Belvedere-Tiburon Landmarks Society is a non-profit, charitable organization open to all Marin residents interested in preserving historical property.

Now we have a weakness for things historical, we like to see them preserved and we like to see them preserved in such a way they are both available and used.

Apparently the Landmarks Society has the same idea.

Their first project is the restoration of old St. Hilary's Church at Tiburon. Through the generosity of an anonymous donor, they have been able to acquire the old church and its surrounding property. They will turn it into a historical museum and park—for people to use and enjoy.

This is indeed a worthy project. We're sure that Mrs. Robert Bastian, the society's first president, and the other officers will tackle other similar projects when this one is well under way.

We hope they do and we're glad they're at work. Most Marinites, we're sure will support the society, whether that support be actual or only moral.

WHAT OTHER EDITORS SAY

The Unanswered Question

If everybody has forgotten the get-richquick television quiz shows and the murk of scandal in which they disappeared, their producers are happy. New York's District Attorney Hogan says the grand jury investigation which he conducted "disclosed a gigantic fraud and hoax . . . involving a regular practice of informing contestants whose lengthy presence on the show is deemed profitable, of the questions to be asked, and frequently providing the correct answers as well."

An intense effort now is being made to prevent publication of this report. Whether it affords grounds for prosecution or for action by the Federal Communications Commission, of course, cannot be said by those who have not seen it. Even if no indictable offenses are uncovered, the public was contemptuously duped by some quiz shows, and the public has a right to know how it was flimflammed, legally or illegally.

Those who accepted payment for participation in these shows have no more right to ask that their feelings be protected than have the producers. What are they trying to hide? A good dose of publicity would be a safeguard against similar fraud in the future. (St. Louis Post-Dispatch)

Some 'Points' On Fluoridation

EDITOR, Independent-Journal:

As a Marin taxpayer, I would like to submit some points for voters to consider prior to the proposed 1960 fluoridation plan:

1. Chemically fluorine is the San Francisco most active oxidizing agent. The fluoride ion is toxic; sodium fluoride is known to have been used for rat poison.

2. Fluoridation is mass medhave not been substantiated. It is a dangerous experiment on human subjects.

3. A mechanical failure in fluoridation equipment could introduce dangerous amounts of fluorides into public water.

4. Fluoridation, if it did work, would only be useful on children in the age group 1 to 10 years whose teeth are still being formed. This would mean that less than 10% of the consumers would "benefit" from fluoridation.

5. In many cases where natural fluoridation occurs, subjects have suffered from brittleness and a disfiguring mottling of the teeth.

There does exist considerable doubt about fluoridation; to illustrate this it should be known that Sweden has nationally outlawed fluoridation of public water supplies.

Maintenance of one's health is important. A socialized "all purpose cure-all" is not the answer to dental health.

Juvenile Hall Ideas Not All New

Independent-Journal:

Many thanks for Randall Gould's fine interpretive article on some aspects of the Juvenile Hall program (July 22). In these days where communication patterns are so difficult to master, your reporter demonstrated a real combination of journalistic skill and sympathy.

unfortunate experiences for some eight months without a full-time superintendent. Consider the business man in a 24-hour-a-day business without a foreman or manager, and you only begin to approximate our past situation.

Whatever success we may enjoy at any time in the future is dependent on our staff. The program is only as sound as the staff administering it. Dedication, hard work, and compassion are only a few of the qualities our present staff combine to help the kids get a new start.

Too Many **Fool Drivers** EDITOR.

Independent-Journal:

It would be interesting to know what percentage Hamilton Field drivers are of Marin County's total driving population compared to the percentage of all the automobile accidents in the county in which the field personnel figures. According to the newspaper reports, the ratio is far out of proportion.

States Are Rejecting States' Rights By Doing Nothing To Protect Them

SAN JUAN, P. R. - There take back a single function. is no better place and time than here, at the site of the 51st annual Governors' Conference, to give a report on what has happened to the noble experiment which President Eisenhower launched two years ago.

The President proposed to give back to the states some of the "states' rights" which the federal government had pre-empted and to reverse the flow of power from the state capitals to Washington, D.C.

QUESTION-What has happened? What have been the accomplishments?

ANSWER — Nothing has happened. There have been no accomplishments. I don't mean that there haven't been some speeches, several resolutions, one or two modest proposals. Yes, all of that and some more of the same here this week. But no governor has arranged for his state to recover a single function which the Eisenhower administration has offered to give

YOU ARE FAMILIAR with the debate: How the federal government is constantly increasing its power and how the states are constantly losing their powers; and can't something be done about it. When he addressed the

Governors Conference at Williamsburg in 1957, Eisenhower proposed a commission of federal officials and state governors to cite some functions which could be returned to the states and some taxation which could be given up so that any state which so wished could take back both the function and the taxation.

Sounds made to order, doesn't it, for any governor and any legislature wanting to begin to redress the balance of state-versus-federal power? The commission suggested several modest starts like the

But no state has acted to course.

THIS GOVERNORS' Conference here in San Juan continued to debate "The States and the Nation," but the states find more reasons for doing nothing than for doing

anything about it. There are reasons. I don't want to suggest that there are not. The reasons are these:

1—The governors of the more prosperous states have so much on their hands that they feel no federal encroach. ment and are quite content to leave things as they are.

2-There are other governors who theoretically would like to see certain functions recovered by the states but who cannot bring themselves to levy the state taxes to finance these functions even when the Federal government abandons the same taxes.

3-There are also governors who would rather have the states' rights issue to talk about than to solve it. They know that they can't recover a states right without recovering a state responsibility and when they complain about the Federal government performing a service which belongs to the states, they really don't want the service performed at all, either by the states or the Federal government.

UNDERLYING ALL of these resistances is a weakness of every state government which, until it is corrected, will prevent any important redress of the balance. That weakness is the distorted representation of rural districts in the state legislatures.

The rural districts of every state in the union have massively disproportionate legislative power and dominate the legislatures to the disadvantage of the under-represented cities. The mayors of the cities know they will get nowhere when they appeal to their own vocational education grant states for help, so they inprograms and small-scale nat- evitably turn to the federal ural disasters. government as the only reFIVE BOYS ADMIRE A WINNER-Five young Marinites cluster around Sue, senior and grand champion Holstein female in the 4-H Dairy Cattle division at the Sonoma-Marin Fair. The Facts said "Yes" to His Heart!

When did the dream first find its way into his heart? We doubt that he could tell you himself. He only knows that there has been a Cadillac in his hopes and in his plans for a good share of his life.

So imagine his delight when he finally got the facts about Cadillac -and found they said "yes" to his heart!

How pleased and encouraged he must have been to learn of Cadillac's modest purchase price. For a Cadillac not only costs no more than many models of other makes-but actually less in view of the many important automotive features included in its basic price.

How convinced he must have been by the story of Cadillac's

operating economy. For the car stretches a gallon of gasoline over an amazing number of miles-and its superb quality assures the maximum in dependability.

And how assuring it must have been to find that just as a Cadillac is unrivaled in its original value—so it has no peer in resale value.

Little wonder-in light of these extraordinary facts-that he decided this was the year to take possession of the "car of cars".

So if you have a Cadillac in your heart, we suggest you let your dealer explain how easily there could be a Cadillac in your life! Why not put a circle around tomorrow?

MARIN ACE PITCHES SECOND NO-HITTER

Bobby DeRosa, phenomenal ace of the San Anselmo Ongaro Plumbers semi-professional baseball team, notched his second no-hit, no-run game of the season last night with a sensational 2-0 victory over St. Helena at St. Helena.

Striking out 10 and walking only two, the undefeated DeRosa thus recorded his 10th victory of the year. Earlier this summer he had a no-hitter against the San Francisco Red Sox.

St. Helena hit only two balls out of the infield and only one batter came close to getting a hit. But that line smash was snagged on a sensational play by third sacker John Boccabella. Southpaw DeRosa now has blanked St. Helena three straight times; twice last year on one and two-hit perform-

San Anselmo scored once in the first and last innings; Lou Campredon on a ground out and Milt Main on a single, sacrifice and error. Ralph Boccabella had two hits and Campredon, Hain, Pete Arrigoni, Tim Reardon and Gary Bartolotti one each.

MORE THAN 1,000 DEAD, MISSING IN WORST EVER FORMOSA FLOODS

TAIPEI, Formosa UPD - Police said today that more than 1,000 persons were dead or missing in Formosa's worst floods in recorded history. There were fears the death toll would rise further.

Latest reports listed 498 known dead, 541 missing and 563 injured. An unconfirmed report said one U.S. Army officer was missing in central Formosa.

Telephone and telegraph communications with the hard-hit area in central and southern Formosa were mostly destroyed and there was a strong possibility the number of dead would increase.

Waters had drawn back from the cities and larger villages but thousands and thousands or acres of rice fields and sugar cane fields were still flooded.

Authorities feared there would be many more dead under the mud and debris.

The Taipei Weather Bureau, which was established in 1898, said the floods were the worst in its history.

Jerady Carter, Robert Hawkins Married In Michigan Saturday

White flowers were at the altar of the St. Hugo of the Hills Church, Bloomfield Hills, Mich., on Saturday when Jerady Ann Carter, daughter of Mr. and Mrs. Stanley Allen Carter of Lone Pine road, Bloomfield Hills, became the bride of Robert Bogle Hawkins.

The bridegroom is the son of Mrs. Joseph Orey Hawkins of Kentfield and the late Dr. Haw-

The Rev. Francis T. Stack officiated at the 12:30 o'clock ceremony.

Given in marriage by her father, the bride wore a Regal Renaissance gown of crystal white slipper silk embroidered with Alencon lace and frosted with clusters of tiny pearls and circlets of opalescents. It had a curved Florentine neckline. Empire waistline and bracelet length sleeves. The bell skirt had Watteau pleats spreading to a cathedral train adorned with garlands of jeweled lace. Her three tiered veil cascading to formal length beyond the train was held by a coronet of graduated pearls. She carried a crescent shaped cascade of phalaenopsis orchids and steph-

Bon Voyage Parties For Mrs. Koenig

Mrs. John E. Koenig of Sausalito is leaving Aug. 14 start ing a trip to Europe. Flying to New York, she will spend some time in Manhattan and also at Hyde Park as the house guest of Mrs. Helen Ludolph, formerly of Sausalito.

On Aug. 23, Mrs. Koenig will board the Hamburg-American liner "Hanseatic," and she plans to visit Scotland before meeting another Sausalitan, Mrs. Alan Scurfield, in London early in September.

A cocktail party honoring both travelers was given recently by Mrs. Carl J. Finn. Other bon voyage parties for Mrs. Koenig was the luncheon at Mrs. Walter Flegal's with Miss Eleanor Flegal assisting her mother in hostess duties. Mrs. J. H. Pomeroy was also a luncheon hostess and Mr. and Mrs. Harry Mohler are giving a dinner party on August 12th.

During her absence, Mrs. Koenig's house will be rented to Gen. and Mrs. F. H. B. Ingall, who, until recently have lived in Bombay, India, where Gen. Ingall served with the British Army. Reading about Sausalito Army. Reading about Sausalito in a travel magazine, the Ingalls investigated its assets and decided they must live on its hills. They hope to find a permanent residence before Mrs. Koenig's return in December.

How to deal with your tensions

If your tensions sometimes make you worried or irritable or upset, you're not alone!

In today's complex world, nearly all of us have minor emotional problems from time to time. And at present one out of every ten Americans has a problem so serious he or she needs medical attention. For these people, modern treatment offers great hope for complete recovery.

As for the rest of us, our problems don't need medical attention, but they do keep us from enjoying life as much as we should. They do make us, and those around us, unhappy much of the time.

To help each of us learn how to control our own tensions, a prominent psychiatrist has written a booklet called "How To DEAL WITH YOUR TENSIONS". In it, he lists a number of proven suggestions that can help you keep your tensions from getting the best of you, and thus live a happier, fuller life.

Marvelous Marin is composed of a variety of things. Marinites, through

their desire for the different, the comfortable and the beautiful have set the pattern for a distinctive mode of home living activity. The homes, tastefully decorated and furnished, landscaped to provide outdoor living according to each individual desire gives us our variety. Dozens of separate elements such as interior decorating, kitchen and utility room planning, lighting, flooring, painting, papering, plumbing, wiring, roofing, tiling, masonry, landscaping, heating, cement work, insulation, weatherstripping combine to make a home.

All of them, the different homes, future developments, the old and the new will be in the Sept. 11 Homes Edition at the beginning of National Home Week. As in past years we will have an edition that will be outstanding. We think the reason for this is because we have tried to portray, in the most graphic and vivid way possible, in news and advertising, the exciting variety of home living made possible here by the ability and imagination of our builders.

We have had so many requests for extra copies of previous issues that we are offering early reservations so that you will have them to send to friends and relatives. Use the coupon blank below to order your extra copies.

"FAIR PRICE"

TODAY?

When prices change from day to day . . . it takes an expert to judge values. To assure your getting a "fair price" for your property there is no better way than to "put it in Multiple Listing."

Literally thousands of homes have been sold in Marin County through the efficiency of Multiple Listing.

This modern, cooperative system has conclusively proved to property owners its value as a sales asset and through candid tours can help you to arrive at a "fair price" on your property.

All you do is sign one contract with one Marin REALTOR and your listing - giving complete details goes to all 400 members of the Multiple Listing Service.

- DEAL WITH THE REALTOR OF YOUR CHOICE.
- ANY MARIN REALTOR WILL PUT YOUR HOME IN MULTIPLE LISTING.
- WHETHER HE OR A FELLOW REALTOR SELLS IT ONLY ONE COMMISSION IS PAID.
